Mr. Martin Perrone, CTR
Certified TEGG Representative
& Risk Assessment Manager
Carpenter Electric, Inc.
1333 53rd Street
West Palm Beach, FL 33407

Dear Marty,

Just a quick note to thank you and your team of TEGG Certified Electricians for helping us ensure our critical electrical components are operating properly, and for assisting us in our efforts to be fully compliant with all NFPA 99 and AHCA testing standards.

My operations personnel from several of our South Florida properties told me your testing team was very thorough and professional, and that your predictive & proactive energized testing process is extremely comprehensive.

As a result, I would highly recommend your testing services to anyone who's responsible for; ensuring consistency of operation and protecting patients and employees from Life Safety issues within a Health Care facility.

Sincere Thanks,

Frank Virgili
