Mr. Martin Perrone, CTR  
Certified TEGG Representative &  
Risk Assessment Manager  
Carpenter Electric, Inc.  
1333 53<sup>rd</sup> Street  
West Palm Beach, FL 33407

Dear Marty,

We want to express our sincere thanks to you and your team of TEGG electricians for helping us to keep our electrical distribution system and critical components performing properly.

From the moment your team arrived at the institute we were impressed with your electricians; they were very knowledgeable, thorough and professional. And your energized predictive & proactive testing process was very comprehensive.

Therefore, I would be happy to recommend you and your TEGG testing services to anyone who absolutely, positively cannot experience and accidental shut down due to electrical failure.

Sincerely,

David Hader  
Facilities Manager  
Max Planck Institute, Florida
